PROFESSIONAL SUMMARY

Information Systems Analyst and advanced Information Systems Engineering student with experience in IT support, data quality, and incident resolution in production environments. Skilled in Python, SQL, Power BI, data visualization, troubleshooting, and process improvement. Analytical, adaptable, and problem-solving oriented professional with experience working in critical operational environments.

TECHNICAL SKILLS

Data & Analytics: Python (Pandas, NumPy, Scikit-learn), SQL, Power BI, Excel (Pivot Tables, VLOOKUP/XLOOKUP), data cleaning, data validation, dashboards, KPI reporting.

Databases: PostgreSQL, MySQL, SQL Server, Oracle (PL/SQL), MongoDB.

Frontend: React, Angular, Next.js, TypeScript, JavaScript ES6+, HTML5, CSS.

Backend & APIs: Node.js, Express, REST APIs, JWT Authentication, Firebase, basic PHP/Laravel, JSON validation, integration troubleshooting.

Cloud & Tools: Firebase Auth, Cloud Firestore, AWS (IAM, EC2, S3), Git, GitHub, Bitbucket, Linux, Postman, Jest, Cypress, Scrum, Kanban.

PROFESSIONAL EXPERIENCE

IT Support Intern

Hospital de Emergencias Dr. Clemente Álvarez (HECA) – Rosario
May 2025 – Jan 2026

- Resolved technical incidents in high-availability critical environments.
- Analyzed logs and diagnosed application and service failures.
- Performed troubleshooting of APIs and system integrations.
- Created technical documentation and incident resolution procedures.

Systems Intern

Rosario Public Health Department – Rosario
Aug 2024 – May 2025

- Conducted functional validation of production applications.
- Diagnosed and tracked issues involving applications, databases, and operating systems.

- Identified and corrected inconsistencies in production data.
- Provided user support and validated changes before deployment.

PROJECTS

JobQuest – Job Search Management Platform

Web application built with a serverless architecture for managing job applications, interviews, and recruitment processes.

- Interactive dashboard with metrics for tracking job applications.
- CSV data export for analysis and reporting.
- Serverless architecture using Angular and Firebase.

Technologies: Angular, TypeScript, Firebase, Cloud Firestore.

GitHub: github.com/Miguel58000/JobQuest

Demo: job-quest-ten.vercel.app

Balances – Personal Finance Management Platform

Web application for personal finance tracking and analysis with real-time synchronization.

- Financial dashboards for income and expense analysis.
- Data consolidation and validation to ensure information integrity.
- Real-time synchronization using Firebase.

Technologies: Vite, TypeScript, Firebase, Firestore.

GitHub: github.com/Miguel58000/Balances

Demo: balances-ten.vercel.app

Help Desk System – Ticket & Incident Management Platform

Web application for managing technical support requests and incidents.

- Operational metrics for monitoring incidents and performance.
- Analysis of ticket patterns and resolution times.

Technologies: Vite, TypeScript, Firebase.

GitHub: github.com/Miguel58000/Help-Desk-Pro

Demo: help-desk-pro-eight.vercel.app

QR Ticketing System – Event Management Platform

Team-developed full-stack application for ticket sales and QR-based event access validation.

- REST APIs for event and ticket management.
- Mercado Pago integration and JWT-based authentication.

Technologies: Next.js, Node.js, PostgreSQL, Prisma, Mercado Pago.
